# WHERE ARE YOU GOING?

Get training, earn money, save the planet.

start here

How do you feel about heights?

ELECTRICIAN

an exact problem solver who loves technology, working with customers, and being outside

ROOF TECH

eager to learn, loves working with their hands, and enjoys the best views (from the roof)

PROJECT MANAGER & ADMINISTRATOR

list-maker/name taker who loves working with people and being onsite

WAREHOUSE/INVENTORY

a solution-maker with super organizational skills, who also likes heavy machinery

SALES

friendliest person in the room; passionate about people, technology, and the planet

ESTIMATING & SYSTEMS DESIGN

on-the-fly thinker and problem-solver who happens to be great with computers, people, and video games

MARKETING

a cross-platform creative thinker with a big plan to make good things happen for the company and planet

ACCOUNTING

sharp as a tack, i.e. not scared to set you straight, and loves a good number crunch

*I think what's cool about the solar industry is that it's a visionary's industry. It's a space for leaders. People who can dream things up. The sky's the limit.*

**DANA, COMMERCIAL BID MANAGER**

*There's a career for everyone in solar.*

**JAMES, PURCHASING**
